Jest   Canva   Redux   UX  
SEO

## COURSES

### CS50x: CS50's Intro to Computer Science

2020 - 2022  
CS50 at Harvard (online)

## EXPERIENCE

### Junior Frontend Developer | Broadway Gaming

11/22 - 12/23   Dublin, Ireland

- Optimised our MUI4 React code base using Storybook to isolate, document and test components in various functional and aesthetic states
- Continuously worked on the user experience of the site and tracked tasks using Jira software and version control on GitLab
- Developed our new company corporate website from wireframe to production using NextJS as part of a small team of developers and UI designers
- Took part in cross-department collaboration to enhance usability and design of various other interfaces such as our customer support interface on Oracle RightNow

### Junior Developer | Baase AB (fintech start-up)

03/21 - 07/22   Stockholm, Sweden (Remote)

- Initially worked on the frontend application interface using Razor pages with Bootstrap
- Maintained the company corporate website through a CMS built on SQL
- Switched to ReactJS, Typescript and Redux mid-way through the year and helped to re-build the application as the only frontend developer
- Implemented the professional application UX/UI design
- Created engaging Figma wireframes and presentations for investor and customer on-boarding

### Data Analyst | KPMG

01/19 - 09/19   Dublin, Ireland

- Operated on Excel and IDEA to format and manipulate data using formulae and charts
- Reviewed data in order to flag irregular trends and patterns to on-site teams
- Worked closely with team members to deal with difficult data sets
- Participated in various volunteering programmes

## PROJECTS

### Lancer

- My final project for CS50 which consisted of building a website using React with Python with a SQLite database
- The system is a service for freelancers wishing to track jobs, invoices and taxes due on all work carried out
